

Loan Pricing & Approval System

A full-stack Loan Pricing and Approval System built as a Capstone Project.

Tech Stack:

Frontend: Angular

Backend: Spring Boot, Java 17

Database: MongoDB

Messaging: Kafka

Testing: JUnit, Mockito, JaCoCo

DevOps: Docker

Key Features:

- JWT Authentication
- Role-based Access (USER, ADMIN)
- Loan lifecycle management
- Pricing calculation
- Admin approval workflow
- Kafka event messaging

Testing:

- Service Layer Tests
- Controller Tests
- ~78% Code Coverage using JaCoCo

How to Run:

1. docker-compose up -d
2. mvn spring-boot:run
3. ng serve
